Reprint: Scattergories

The Scattergories game is the fast-thinking game of categories and words! Roll the die, flip the sand timer, and think of answers to each category on the category list. Players race against the timer as they write down answers such as things in a musical group, a vegetable, a reason to have a party, and items found in a bakery – each beginning with the letter C. Score points for writing down things no one else did. The more creative the answers, the more points you score. With more than 190 categories and 20 letters on the die, the game is exciting to play over and over again.

Restock: Mastermind Game (Refresh)

It's easy to learn and fast to play, and with more than 2,000 possible codes it's different every time. The Codemaker sets a secret code, then the Codebreaker tries to match the code using logic, deduction, and maybe even a little bit of luck. After each move, the Codemaker gives clues to the Codebreaker. Codemakers can make their codes even more devious by using multiple pegs of the same color or by leaving one or more peg holes empty. With so many possible code combinations, every game is guaranteed to be a brainteaser.
